Product Data Sheet
SORB®MS Marine Solutions
„Temporary Storage Bladder“

Product Information:

The Temporary Storage Bladder is designed to be used as a temporary storage solution developed for use on land and in water. The bladder can be laid out on flat ground to be filled and can also be secured to a work platform or vessel in water. It is towable when in water. The bladder is designed to store most types of liquids especially hydrocarbons, including diesel. When empty, the system can be folded, reducing the space requirements for storage and increasing ease of transport. Camlock connections allow liquid transfers.

Application

- for the temporary storage of oil, hydrocarbons, chemicals and other liquids

Key Features

- on-land an in-wager storage
- fast and easy assembly
- contains most liquids including hydrocarbons
- high tenacity fabric resistant to wear, tear and hydrocarbon damage
- can be folded for storage and transport

Technical Data

The bladder comes in 5 m³, 10 m³, 12 m³ and 25 m³ capacities. Manufactured with heavy-duty PU blend or Polymer Alloy Coated Polyester Fabric. The bladder is manufactured with High Frequency Welding technology that produces no seams, increasing its strength and its ability to expand. The bladder body is resistant to seawater, UV radiation, chemical dispersant and hydrocarbons. The system is designed to be easily cleaned.
