Product Data Sheet SORB®MS Marine Solutions Temporary Storage Framed Tank

Product Information:

The Temporary Storage Framed Tank is a rectangular, open top temporary tank supported by an aluminium frame designed to store hydrocarbons and other liquids. It is quickly assembled and is designed for multiple applications including on-board vessels, beaches, jetties and most other work platforms. The design evenly distributes the weight of stored liquids. The storage tank is portable with no tools required for assembly. It is maintenance free other than cleaning after use. It is equipped with a 1 ½" Plastic Decanting Valve for easy drainage and to simplify operations.

Application

- for the temporary storage of hydrocarbons and other liquids

Key Features

- quick set-up
- compact storage
- light-weight, portable and easily transported
- resistant to wear, tear and hydrocarbon damage
- decanting valve

Technical Data

The tank is manufactured from Polymer Alloy Coated Polyester fabric. The tubular space frame is manufactured with marine-grade aluminium. It is ftted with a decanting valve for easy drainage.
A tarpaulin ground mat provides protection from spills during transfer operations. It comes in a heavy-duty, PVC Bag for storage and transportation. It is easily cleaned and is resistant to sea-water, UV radiation, chemical dispersant and hydrocarbons.
